

Targeted Temperature
Management

PEDIATRIC TEMPERATURE MANAGEMENT

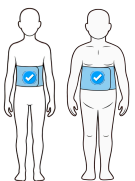

For Every Stage of Pediatric Care

From the ER to the PICU, OR, and recovery, Altrix supports continuous temperature therapy across departments — helping maintain care continuity wherever pediatric patients are treated.

GENTLE ON FRAGILE SKIN

Non-adhesive wraps designed to help reduce skin stress, moisture exposure, and therapy-related irritation during prolonged treatment.

SIMPLIFIED PEDIATRIC COVERAGE

Only two wrap sizes designed to fit nearly all pediatric patients, simplifying workflow across departments.

PRECISION CONTROL FOR PEDIATRIC CARE

Continuous monitoring and rapid adjustments support precise thermal stability throughout therapy. **FDA-cleared for pediatric use.**

THERAPY THAT MOVES WITH THE PATIENT

Designed to support uninterrupted temperature management across multiple care environments.
